When you see this sign, you can be assured of good service, quality STIHL products, experienced advice and instruction on the use of your new STIHL Product.

SPOILED FOR CHOICE

You know and trust STIHL petrol and electric products – reliable, robust, high performance levels. Now, with the enhanced and expanded range of STIHL cordless power tools – now on promotion - there's an even wider and more comprehensive selection of STIHL products to choose from.

STIHL battery-powered models are powered by quality lithium-ion batteries for absolute confidence. No loss of power. Equivalent to a petrol-powered model.

Limited noise and no emissions. No wires and cables. No messy refuelling. Just powerful mobility and total convenience, no matter what your needs.

Change how you think about power; change how you experience mobility.

Lithium-ion PRO

Designed for heavy duty applications, these models have a longer battery run time for professionals operating for many hours in the field. Ideal for work in noise-sensitive areas such as urban environments.

Lithium-ion COMPACT

A modular concept for home users, with one battery that is compatible with all four products in the range (brushcutter, chainsaw, hedge-trimmer and blower). Designed for tasks around the home and garden. Lightweight and compact for easy handling.

Lithium-ion

This is the latest battery-powered range from STIHL. Each product has its own built-in battery with enough running time to cater for the gardening tasks of smaller gardens, typical of today's close-knit communities.
