

Create and Donate 2017

Create a mosaic with a design of your choice or company logo through a **Team Building Initiative** with your staff and donate the work to a community school, hospital, sports initiative or charity of your choice.

OR

Sponsor a mosaic for a local school of your choice and allow the **Scholars** to create the mosaic.

Let us:

- Meet with you to discuss your ideas so that we can translate your vision into a mosaic.
 - Prepare a quotation for your consideration. This is done on a per project basis as each project may vary in size and use different materials.
 - Create a design or work your chosen design into a layout suitable for mosaic.
 - Source and supply ALL materials needed for the workshop process.
 - Lend our hands-on expertise throughout the workshop.
 - Install your completed project.
-
- Depending on the size of your project of choice, we can offer to host the workshop at your work premises, should you choose to include your staff in the creative process. Alternatively, we will set up to work at the school of your choice.
