

SWEET ORANGE ESSENTIAL OIL

Although essential oils have been used for ages, we still know little of the remarkable benefits these oils entail for us. Revelation 22:2 says: "The leaves of the trees will be for the healing of the nations."

According to research, the benefits of orange oil include:

Increasing circulation; Killing bacteria and pathogens; Decreasing wrinkles; Improving complexion; Easing anxiety; Decreasing hypertension; Increasing productivity by up to 54%

HOW TO USE

- **Aromatically:** You can **diffuse** the oil in your home using a diffuser or inhale the oil directly. To make a natural room freshener, put a few drops of oil along with water into a spritz bottle.
- **Topically:** Before applying orange oil to your skin, it should be diluted with a carrier oil, like coconut or jojoba oil, in a 1:1 ratio. Once you know your reaction to orange oil is safe, you can add a few drops of essential oil to a warm bath, lotion or body wash.
